TOPICS FOR DISCUSSION:

I. CALL TO ORDER

II. ACT ON MINUTES/NOTES:

1. June 25, 2024 Waterways Committee Meeting Minutes

III. NOTICES OF INTENT (NOI):

1. Town of Barnstable, Griffin Beaudoin, 180 Ocean Street, Hyannis, MA 02601, Map 326/Parcel 068. The Town is proposing to repair the of the existing 680 linear-foot steel bulkhead located on Hyannis Harbor in Barnstable, MA. The proposed repairs include the installation of steel plates to repair areas of severe section

loss, the recoating of steel sheeting to 6 inches below the MLW line, and the installation of anodes to extend the service life and slow the corrosion rate of the existing Bismore Park bulkhead. The plan is based on the inspections both by Foth (2018) and Collins Engineers, Inc. in 2023 which indicates an additional 20 years of useful life to the Bulkhead with the recommended repairs.

2. Anthony F Pelletier 1994 Trust, Pelletier, Anthony, 18 Nelberth Terrance, Hyannis, MA 02601, Map 325/091. The applicant proposes to reconstruct a licensed jetty, revetment, boat ramp platform on the revetment with native plantings to replace dilapidated concrete areas that extend 100 Feet from the mapped Mean High-Water Line. The existing licensed structures will be reconstructed in the same footprint. A new NOI and Ch91 License is being requested. The elevation of the groin will be raised up 3 feet. The concrete walkway down the groin will be replaced with a new wood walkway and platform to service the floats via the existing ramp. The revetment needs to be reworked. The size of the platform is being reduced and the piles will be replaced that hold up the platform. The equipment for the project will be a small barge with a crane and impact or vibratory hammer that will be utilized to drive the piles or do all the rock work. The project may be rebuilt from land with a larger excavator that will access the property from the North side of the house. The barge will be used at high tide so as not to ground out at low tide.
