

**Hyannis Water System Water Service Line Inventory  
20235609.001A**

**October 22, 2024**

## Service Line Initial Inventory

The Town of Barnstable submitted an initial service line inventory to the Massachusetts Department of Environmental Protection on 10/16/2024 as part of regulatory compliance. The purpose of this inventory is to help water systems take action to address a significant source of lead in drinking water - lead service lines (LSLs).

The attached table is a shortened version of the inventory containing the service address, service line material on the public and private side, classification of the entire service line, and the verification method. Material and verification codes are described below:

| <b>Material Codes</b> |   |
|-----------------------|---|
| B                     | Brass   |
| C                     | Copper  |
| CI-L                  | Lined Cast Iron   |
| CI-U                  | Unlined Cast Iron   |
| DI                    | Ductile Iron  |
| G                     | Galvanized  |
| HDPE                  | Plastic (HDPE)  |
| L                     | Lead  |
| PVC                   | Plastic (PVC)   |
| UNK-LG                | Unknown, may contain lead and/or galvanized                 |
| UNK-NOLG              | Unknown, definitely does not contain lead and/or galvanized |

| <b>Verification Codes</b> |                              |
|---------------------------|------------------------------|
| A                         | Statistical Analysis         |
| C                         | Customer Self-Identification |
| F                         | Field Inspection by PWS      |
| S                         | Sequential Monitoring        |
| V                         | Records Review               |
| O                         | Other                        |

| Locational Identifier                             | Public Material | Private Material | Entire Service Line Classification | Verification |
